# HIGH FLOW HOSE REEL

### Special Features

- Low Profile Outlet Riser
- Round, Tapered Handle
- Full Flow Brass Swivel Joint
- Long-Wearing Corrosion Resistant Adjustable Tension Brake
- Long Handled Lock Pin
- Open Hose Slot Drum Design

SERIES 1125

SERIES 1175

NOTE: Roller hose guide, hose, and gear guard shown are sold separately.

## DURABLE • EASY MAINTENANCE • LONG LIFE

**REDUCE HOSEWEAR**  
Detachable roller-guide with smooth rollers eliminates pinching & reduces hose wear.

**CONVENIENT**  
Adjustable solid rubber hose stop for convenient lead length positioning.

**RELIABLE**  
Full-flow swivels with O-ring seals supported by Teflon® backup rings for maximum longevity & reliability. Options include Brass, Stainless Steel, and Zinc Plated swivels with Buna, Viton® and EPR seals.

**LOW MAINTENANCE**  
Lubricated factory-balanced cartridge-style spring motor, constructed from in-house proprietary custom machinery, ensures the highest quality and long lasting reliability.

**EASY INSTALLATION**  
1/4" bent steel base & support post has no structural welding adding rigidity, reducing vibration. Slotted mounting holes for easy installation.

**MAXIMUM STRENGTH**  
Heavy ribbed steel discs with rolled edges for maximum strength & operator safety.

**QUALITY COMPONENTS**  
Multi-position locking ratchet easily secures hose at desired length. Non-corrosive 1/4" zinc-plated steel lock ring with stainless steel lock dog & spring ensure reliability.

**VERSATILE**  
Guide arm adjusts for various mounting positions including wall, floor, ceiling, & vehicle.

**DURABLE**  
High-quality steel construction sealed with a durable, epoxy powder-coat finish.

**HEAVY DUTY**  
Heavy-duty 1" solid steel axle with 1" self-lubricated precision bearing harbored in a blended composite hub assembly provides superior strength and a smooth, precise rotation.

UPGRADE TO **FLCOIL** (See Page 30 For Details)

MODELS AVAILABLE IN **STAINLESS STEEL** (See Page 29 For Details)
