## IE CLEAN BLASTER (Multi-Station Water Blaster)

### The Easy Way to Remove Mud

The **IE CLEAN BLASTER** is designed to be an efficient and reliable multi-station water blaster. Each station or spray bar uses a high flow, medium pressure wash stream to provide effective cleaning. This type of cleaning is ideal for removing large volumes of material.

#### FEATURES:

- ◆ Time Delay Shut Down
  - Optional Auto Start-Stop (Trigger controlled)
- ◆ Bypass Orifice ensures minimum pump flow
- ◆ Feed Tank with Low Water Shut Off
- ◆ One Turbine Series Gun with 25' Hose
- ◆ Multi-Stage Centrifugal Pump
  - Superior reliability with added protection against dry-running
  - Super efficiency for unmatched operating economy
  - Stainless Steel Impellers
  - Hard-wearing, maintenance-free, easy-to-replace, mechanical cartridge seal minimizes downtime
  - Totally enclosed, fan-cooled Motor
  - Hot or cold water

#### SPECIFICATIONS:

- ◆ Standard: Max Flow - 125gpm, Max Pressure - 285psi, 20hp  
3'-0" W x 2'-0" D x 5'-0" H - 700 lbs
- ◆ XL: Max Flow - 210gpm, Max Pressure - 310psi, 30hp  
3'-0" W x 2'-0" D x 6'-3" H - 900 lbs

Note: Other flows and pressures are available.

#### APPLICATIONS:

- ◆ Spray bars in processing plants
  - increase product quality
  - increase product quantity
  - reduce water usage
- ◆ Mud, Grass, or Trash removal

**Turbine Series Spray Gun:**

- ◆ 26" Stainless steel lance
- ◆ Mist cone to straight stream adjustment
- ◆ 1/2" mpt inlet
- ◆ Up to 1200 psi at 140° Fahrenheit.
