## RECOVERY VACUUM SURFACE CLEANER

### ANTV3: Heavy Duty Twister Recovery Vacuum Surface Cleaner

This surface cleaner connects to a high pressure washer and a vacuum to clean concrete 10x faster than a wand without splashing dirty water on clean areas while eliminating wastewater runoff.

Features:

- ◆ Stainless Steel frame and deck
- ◆ 17" cleaning / 22" vacuum path
- ◆ Adjustable height castors
- ◆ High RPM, dual spray bar
- ◆ Up to 5gpm @ 4,000psi, 200°F
- ◆ Requires 2" hose, pressure washer, and vacuum (min 100cfm & 91" lift)

### ANT12 Mini Vac

Connects to your pressure washer gun assembly and vacuum hose. At just 12", it is ideal for tight areas or small touch-ups.

Features:

- ◆ Up to 5gpm @ 4,000psi, 200°F
- ◆ 12" cleaning/vacuum path
- ◆ Dual nozzle spray bar

### Water Recovery Accessories

#### ATP40 Hydro Vacuum Arch

Connect a vacuum source (75-200cfm) to this and it creates a vacuum wall along its bottom edge to suck up the water.

#### ZMAT6 Sand Tube Berms

- ◆ Contain and direct wash water towards your recovery vacuum source
- ◆ Suitable for rough or smooth surfaces
- ◆ Available in 2', 6' or 10' lengths

#### ZMATD Drain Pillow

Keep your wash water from going down your drains by covering them with this 3' x 3' Drain Pillow

#### ZMAT7 6' Foam Rubber Sand Berm

#### Vacuum Scupper

Great for getting into tight places to efficiently vacuum up your captured wash water
