New Equipment Warranty

Industrial Equipment guarantees against defects in material and workmanship for a period of one year from the date of invoice. Defects must be verified by Industrial Equipment. All parts must be returned to Industrial Equipment freight or postage paid. If warranty claim is valid, return freight or postage will not be paid by Industrial Equipment.

Liability includes field labor charges and is limited to repair or replacement of defective parts at the option of Industrial Equipment. Damage resulting from neglect, abuses or tampering voids this warranty.

Our obligation hereunder to repair or replace defective parts is the exclusive remedy for breach of this warranty, and we will not be liable for any other damages or claims, including consequential damages.

This warranty is in lieu of all other warranties, expressed or implied, including any warranty of merchantability and of all other obligation or liabilities on our part.

1. **ELECTRIC MOTORS AND COMBUSTION ENGINES.** Primary warranty coverage of these units is the responsibility of the motor or engine manufacturer's nearest authorized repair station. If, however, said facility is uncooperative or nonexistent, warranty will cover such component for the warranty period.
2. **DEFECTIVE PART(S).** Customer understands that the ultimate decision on part(s) defect is retained by Industrial Equipment. If it appears defect is in doubt, approval must be obtained before credit for part(s) is made to customer.
3. **NON-COVERAGE OF WARRANTY.** Customer understands that repairs, adjustment, and service calls due to misuse, negligence, alteration, accident or lack of reasonable and proper maintenance and operation are not covered by warranty; nor is loss of time, inconvenience, loss of use of unit, consequential damage, or other matters not specifically included.
4. **LABOR.** In addition to the above, Industrial Equipment will perform labor for warranty adjustment, repair, and part(s) replacement at no charge in our facility.
